

Progressive Rail Layout by Alan Saatkamp, MMR

DSED Member Alan Saatkamp, Master Model Railroader, will be featuring his new Progressive Rail switching layout at the 2013 Trains At Christmas November 23-24 at the W.H. Lyons Fairgrounds in Sioux Falls.

The pictures below shows a schematic of part of the layout and a scene from Hamburg Ave. on this model of the real deal known as Airlake Industrial Park near Lakeville, MN south of Twin Cities.

Kids will have an opportunity to try their hands at operating (run trains)!

DSED will also be there with the modular layout, and we hope to feature never before seen yard modules.

We hope to see you at Trains At Christmas!
